

# Faith Leaders Oppose H.R. 4760

## "Securing America's Future Act"

Dear Members of Congress,

As **79** religious leaders and faith-based organizations from many traditions, we write today in strong opposition to the Securing America's Future Act (H.R. 4760). We urge you instead, support the Dream Act or other bipartisan proposals that provide a pathway to citizenship for Dreamers while upholding the value of family unity. We are heartbroken that immigrant youth are at risk of deportation due to Congress's failure to act. Every day that passes without a solution Dreamers lose their status and their ability to live, work, and attend school without fear of detention and deportation. Now is the time for immediate and compassionate bipartisan action that provides these aspiring Americans stability and opportunity.

The Securing America's Future (SAF) Act, led by Congressman Goodlatte, would separate families and deprive Dreamers of an opportunity to pursue a pathway to citizenship. This would create a permanent underclass in America, and threaten our national values.

Our churches, synagogues, mosques, and temples believe deeply in the sanctity of the family and stand against prolonged family separation. The family unit is the foundation of society and families hold our country together. We ask you to reject the SAF Act and any legislation that threatens family-based immigration.

Additionally, the SAF Act creates a new federal misdemeanor offense for those who violate any terms or conditions of admission and then establishes a requirement that any Dreamer seeking legal status must maintain an annual income above 125 percent of the poverty line. This means that if a Dreamer's income falls below the poverty line then they would be deemed inadmissible. Not only would this lead to detention and deportation, but this law effectively criminalizes those struggling with poverty. Finally, this bill proposes severe cuts to legal immigration and expands mass deportation of our immigrant neighbors. The SAF Act rejects the fundamental principle of a compassionate solution for those at the margins of our communities and fails to acknowledge the human dignity of our immigrant families.

We stand with the approximately 1.8 million Dreamers who arrived in this country as young people and would benefit from the Dream Act or similar legislation. They worship with us, contribute to our economy, and add their many talents to American society. Dreamers have been calling on Congress for

decades to pass legislation that provides a permanent solution and long-term stability in our communities. Congress has repeatedly failed to deliver.

Since DACA was terminated in September, 2017, more than 17,000 Dreamers have lost protection and are at risk of deportation. They are living in fear and time is running out. We affirm bipartisan negotiations which are happening in good faith, and include Dreamers' input, to resolve this crisis. As you continue negotiations, we ask you to remember that any solution must honor the core tenets of human dignity and family unity.

As communities of faith, we urge Congress to reject the SAF Act. We urge you to instead enact a compassionate, bipartisan solution that includes a pathway to citizenship for Dreamers - without undercutting other communities before February 8th.

Sincerely,

Rev. John Liotti, Able Works

Rev. Mike Castle, President of the Board, Alliance of Baptists

Nancy Runkle, Bellevue Presbyterian Church
